The idea of healthcare provider application is to allow users to book online doctor's appointment through the website.

### **Core Features:**

1. Book doctor's appointment.
2. Search by doctor and hospitals.
3. Allow patients to make notes on what needs to be asked to a doctor prior to appointment.

#### Main Page:

Specialities displayed on main page with icon for each eg. Primary care, Dentist etc.  
User will be able to see the list of doctors under each speciality.

#### Search by doctor:

User will be able to see the listings of doctors.

#### Book Appointment:

User will be able to book appointment based on availability.

#### View Appointments:

Allow users to view their appointments on a calendar.

#### Cancel Appointment:

User will be able to cancel the appointment.

Search by Hospitals: User will be able to search hospital to find the doctor.

### **Extra Features:**

1. Book lab tests: user will be able to book the lab test based on uploaded doctor prescription.
